MAYOR'S NEW YEAR MESSAGE

Greetings from City Hall and a heartfelt wish for the best during the new year! Zachary government has enjoyed enormous success over the past eleven years and will continue to provide its citizens with the same dependable services that they have come to expect.

The present Administration, now in its third and final term, has truly come full circle. Upon arriving in 2011, we identified many existing challenges. While at times appearing insurmountable, we were fortunate to be able to minimize or eliminate many of the potential concerns identified. Our adopted slogan “that failure was not an option” drove our efforts then and remains a constant today.

While most of our proven experience and performance has been good, positive, and generally well received, we are not an administration without error. Merely assuming that all internal operations and practices are functionally correct is not enough. Enhanced administrative oversight and refocused efforts in the areas of clarity and improved internal communications will become our ongoing priority. As we progress during this final year, we will be completing those previously begun plans and projects important to the future of Zachary. These efforts are certain to help alleviate many of the worrisome concerns for the future.

Equally important, is our solemn pledge for a smooth and seamless transition of authority and responsibility with the new administration that will follow our own.

In the interest of continued good government for all, I do remain.

Mayor David Amrhein
